Pet Care at Home is a unique and exclusive membership scheme designed to take care of all your pet care needs and to make pet ownership an even better experience.

We make all the appointments and do the running around so you don't have to.

Our services are available in a range of options described in the chart opposite. To ensure you benefit from the package that's right for you, we arrange for one of our Veterinary Nurses to visit your home and to go through all the options personally.

All our programmes are breed specific so that your dog or cat gets the most relevant care.

Call 08451 444 555 now to book a free no obligation home appointment.
